Tagging Guide for Punch Divisions

Toby the Dog

Date:

The following tags are used for the markup of verse components in the Imaginary Punch Project:

**div** Contains any kind of page division. Consists of an optional `<head>`, followed by any mixture of `<l>`, `<lb>`, or `<lg>`s, followed by an optional `<signed>`.

  Attribute `n` gives the serial number, and `type` specifies the kind of material.

**emph** Contains any emphatic words. Consists of text and possibly `<lb>`s.

**head** Contains a heading. Consists of text. Attribute `type` indicates the kind of heading.

**l** Contains a line of verse. Consists of text, possibly mixed with any number of `<emph>`, `<q>`, or `<lb>`s. No attributes.

**lg** Contains a group of verse lines or stanza. Consists of an optional `<head>`, followed by one or more `<l>` or `<lb>`s. Attribute `n` specifies a number.

**lb** Marks the point where an unexpected line break occurs. Empty element. Attribute `n` supplies a number.

**q** Marks a piece of direct (quoted) speech. Consists of text, possibly mixed with `<lb>`s. No attributes.

**signed** Contains a signature. Consists of text. No attributes.
