

XSLT for Humanists

Laura Mandell, Initiative for Digital Humanities, Media, and Culture

Texas A&M University

With Rebecca Harris, Sarah Potkin, and Matt Christy

We propose to offer a day-long workshop in XSLT transformations for TEI documents, covering a wide range of document types and outputs. We will focus on the TEI-provided XSLTs and how to modify them for particular projects.

Our goal is to bring people into the course who need to know how to transform their documents, but also bring together people who have been doing so already and who consequently have tips and tricks for particular problems.

This workshop will be the platform for presenting and getting feedback on a book to be written under the title of the workshop: collaborating authors are welcome!
